- Or making sure your career/business industry or job scope falls under your favourable career element. For example, **Water** element careers (ie. **Advertising, Arts, Communications**). This will ensure that your career/business element will suit you, thus helping you in your career.

## Your Five Element Breakdown

1 Extremely Weak Water	1 Weakest Wood	0 Weak Fire	9 Strongest Earth	1 Strong Metal
<b>1%</b>	<b>3%</b>	<b>0%</b>	<b>86%</b>	<b>7%</b>

This tells me that you are a **Weak Water** because of too little **Water (1%)** and **Metal (7%)**. Your element is born in a season which makes Water Element **Extremely Weak**. Thus, influencing the element strength of the other five element elements. The percentage of each element is considered after considering the seasonal strength and the number of that element present.

Thus, your favourable elements are **Metal (7%)** and **Water (1%)** Elements. **Fire (0%)** is your wealth element. However, as you are a **Weak Water**, you first need to be stronger in order to control your wealth element. Based on the percentage of the Five Element of each of your favourable element. You should attempt to enhance the favourable element with least percentage, followed by the favourable element with the next lowest percentage.

As **Weak Water**, your favourable elements are **Metal (7%) / Water (1%)** .

- **Water (1%)** is your most favourable element.
- **Metal (7%)** is your next most favourable element.

Your unfavourable elements are **Earth (86%) / Wood (3%) / Fire (0%)**.

- **Earth (86%)** is your most unfavourable element. As you have way too much of **Earth**, it is best to avoid it as much as possible.
- **Wood (3%)** is your next unfavourable element.
- **Fire (0%)** is your least unfavourable element.

You have a very unbalanced Five Element distribution. Often, this produces signs of a person with

several possible health problems.

You have 0% Fire element. This often signify possible Health related problems to the Heart and Brain.

You have 86% Earth element. This often signify possible Health related problems to the Stomach and Intestine. Having too much Earth may sometimes lead to indirect health issues related to Kidney and Sex Organ (Water element).

The ideal balance of each element is generally 20% of each element. However, it is difficult to achieve exactly 20% of each element. This is because it is difficult to know exactly how much of each element you have at any point in time. So as long as you have more of your favourable elements, you will improve your balance and harmony.

## Your Ten Deities & Key Characteristics

Earned Wealth (zheng cai)	Authority (zheng guan)	Main Funds (zheng yin)	Intelligence (shang guan)	Competitor (jie cai)
<b>4</b>	<b>4</b>	<b>5</b>	<b>2</b>	<b>1</b>
Unexpected Wealth (pian cai)	Determination (qi sha)	Unexpected Funds (pian yin)	Emotional Intelligence (shi shen)	Friend (bi jian)
<b>0</b>	<b>3</b>	<b>0</b>	<b>2</b>	<b>0</b>

Your wealth deities are at 4/0. You have fairly good Earned Wealth opportunities which you can take advantage should you work hard.

You have a good leadership quality skills. You have a strong determined who gets things done if you decide on it.

You are blessed with certain amount of hidden talents or skills. Exactly what kind of talents, you will discover it in time.

You will find rather good prospect if you work for others as opposed to being your own boss.

Otherwise, there isn't anything significant to point out.

## Analysis Breakdown by Health / Wealth / Career / Business etc

### A. Overall

Unfortunately, you are considered a person with very little luck on your side. You have to work extra hard on your own to be able to gain success. You also need to take care of your health, as you have a chart that is likely to have some health issues. But as long as you lead a healthy lifestyle, this should not be a major problem.

### B. Health

As you have a slightly unbalanced chart, it does often mean that you do have to take extra caution about your health. This is because most people with too little or too much of an element often shows signs of health issues.

In your case, you have to be extra careful about health issues originating from:-

- Heart and Brain, due to 0% Fire element.
- Stomach and Intestine, due to 86% Earth element.
- Kidney and Sex Organ, may also be indirectly affected due to too much Earth element.

However, as long as you maintain a health lifestyle (ie exercise and taking care of what you eat), you can still minimise any Health Issues from occurring.

There are many external factors beyond ba zi that will influence your health. Keeping a good diet and having sufficient exercise helps to keep you healthy.

## C. Wealth

You have a total of **4** wealth luck (**4** Direct Wealth and **0** Unexpected Wealth). This is considered average wealth luck. Most average people have between 2-4 wealth luck.

Some of the additional earned luck and unexpected luck unfortunately comes during the age period which you will not benefit too much like (during your youth and extreme old age). So it means that you will not enjoy any major wealth luck from such deities during your working age. You will still enjoy some luck every few years or so, but not as significant as having a wealth deity in the major 10-yearly luck.

The only other way you can enjoy additional wealth luck is from people around you, ie your spouse, your friends or your business partner etc. ie if in business working with a partner that has lots of wealth luck will be beneficial for you, or having a supporting wife with wealth luck will also benefit you etc. This is often what we like to term borrowing heaven luck from others.
